Democracy seek unity in diversity by way compromise. Fascism seeks to create a master race by force of will.

Reality is dependent upon the level of consciousness. Consciousness is causal, and our physical reality is it's effect.

#### Free Energy Devices:

Energy Converters that innovatively manipulate magnetic fields to create electricity.

Crystal Converters which convert background cosmic rays into electricity without using moving parts or batteries.

Water-as-Fuel devices that resonate water molecules, with Hydrogen released super-efficiently at point of use, so as to provide power.

Breakthroughs in cold fusion, now labeled as low energy nuclear reaction.

Solid-State (no moving parts) devices in which electronic circuitry and materials that resonate with cosmic background energy.

Using sound frequencies to create tiny bubbles that implode and release an excess of energy

Vortex technologies that work with rather than against natural motions

There are three types of "refugees": Economical, Political and Environmental. They share the cornerstone of global warming. The release of Free Energy Patents and a Universal Basic Income can solve this.
